Your gift to the American Cancer Society – in remembrance of a friend or loved one – provides hope for the future, progress toward a cure and answers to cancer-related questions.

Your gift is invested in the American Cancer Society's lifesaving cancer awareness programs, research projects, and services to cancer patients and their families. This expression of love through a Memorial Gift furthers that progress by saving lives and reducing suffering. The fight against this disease is complex and must be fought on many fronts, including funding groundbreaking research, providing up-to-date cancer education, advocating for public policies that benefit our community, and providing services that improve the quality of life for patients and their families.
